Workshop and Training Descriptions

Note: for the professional development at this event-

TRAININGS refer to longer, more intensive professional development sessions (**PURPLE**)

WORKSHOPS refer to shorter, topical sessions (**BLACK**)

Trainings 10:35am-12:00pm

Children's Power Play!

Network for a Healthy California; Tuline N. Baykal, Bay Area *Children's Power Play!* Coordinator

Description: Encourage students and their families to eat more fruit and vegetables and to be physically active for at least 60 minutes every day for better health. We offer three Kits: The *School Kit* is designed for 4th and 5th grade students and are linked to California Content Standards. The *Community Youth Organization Tool Kit* is designed for after school and summer programs. All activities are fun, engaging and educational.

Fun, Hands-on Science

ClimateChangeEducation.Org; Jim Callahan, Editor

Description: We'll do science demonstrations together, then begin making your own versions using easy to gather and assemble, inexpensive, earth friendly supplies. Specific Demonstrations- Global Warming Discovery: Team up as space scientists, design space probes that travel to the planets; Carbon dioxide is changing our oceans (acidification); Albedo Effect: Comparing snow and oceans, white rooftops and asphalt -- related to global warming.

Positive Behavior-Supporting All Children for Success

Special Needs Inclusion Project (SNIP)/Edgewood ; Dee Hayden, Jeremy Damec, Diana Fuerza

Description: In this workshop designed for the adult learner, we focus on the importance of a strength-based approach when working with all school-aged youth, including those with disabilities, in After School Programs. Attendees will learn to identify basic needs behind child/youth behaviors, how to better meet those needs and successful responses to redirecting unwanted behaviors. Our goal is to provide participants with tools that can then be practically applied to specific situations in programs.

Power of Play

Playworks USA; Lauren Dean; Training Coordinator

Description: The Power of Play workshop offers participants a template physical activity program that is well-rounded, fun and accessible to every child. We'll run through games from our curriculum (Bring your sneakers and get ready to play!), and give you tips to facilitate and handle potential challenges. Games: Ice Breakers, Readiness, Tag, and Cooperative Games; Naming Potential Barriers: How Gender, Ability and Unhealthy Competition; Impact Whether Kids Feel Included; Creating Inclusive and Healthy Environments for Play

Workshops 10:35am-11:15am

How To Produce a Digital Video Mash-Up

BAYCAT; Marco Carlos & Will Hammond

Description: Participants will take home a comprehensive curriculum on how to produce a digital video with your young people. This is a hands-on workshop. Attendees will learn and practice basic steps of digital video mash-up and easy to use instructions to try on in their summer programs.

Stories on Stage: Drama as a Tool for Improving Reading Comprehension

StageWrite: Building Literacy through Theatre; Elana Lagerquist, Executive Director

Description: This is an interactive workshop filled with creative activities teachers can use to dramatically explore a story. Participants will work from an elementary level text to bring narrative story elements to life in a holistic and meaningful way in order to help students deepen reading comprehension skills.

The GREAT Outdoors: Explore, Discover, Play

Bay Area Wilderness Training (BAWT); Kyle McDonald, Founder & CEO

Description: Strategies for outside activities can be done with little money. Getting kids hooked on being outdoors is healthy, fun and easy to do. Learn ways kids can connect to the outdoors through practical, fun and interactive games.

Workshops 11:20am- 12:00pm

Service-Learning Activities for Summer Programs

ExCEL Service Learning Initiative; Ashley Hildred and Helen Yu; Americorps VISTA &

Description: Want to learn how to turn any summer activity into academic exercise or service project? How about both? Our workshop will teach you about what service-learning is and how it is linked to student achievement, the difference between service-learning and community service and how to integrate service-learning into your program with a few easy exercises you can bring back to your programs.

Creative Curriculum For Mural Application & Creation

Sirron Norris; Artist & Gallery Owner

Description: Sirron Norris will give a short history of Murals. He will speak about how murals are created, how people tell their stories through murals and discuss what the stories are about. Participants will learn how to create curriculum around a group mural project, and there will be drawing and quick cartooning exercises that directors/camp staff can take back to their students or campers.

Bold Leaders, Thriving Parks, Healthy Communities, and an Environmentally Just Society

Crissy Field Center; Josh Gannis, Michele Gee

Description: How does Crissy Field Center *encourage healthy communities, thriving parks, and an environmentally just society*? In this fun and interactive workshop, explore creative ways to connect youth with their environment. Learn some activities you can lead in any outdoor setting and hear about opportunities to bring your youth to their National Park next door.

Trainings 12:05- 1:30pm

Elements of A Quality Summer Program

Sarah Pitcock from National Summer Learning Association & Katie Breckenridge from the Partnership for Children and Youth

Description: This training will provide an overview of the elements of quality for a summer program, drawing on national research and model programs in other communities. The training will include some hands-on activities for participants to apply some of the quality elements to their own planning for summer programs.

The Rhythm of Youth Creates the Poetry of Hip-Hop

SCORES; Emily Queliza; Colin Schmidt; Yuri Morales; Robert Joseph

Description: This hands-on SCORES workshop will demonstrate how you can unleash the creativity in young people through writing hip hop poetry in your summer program/camp. Incorporating hip hop into your summer program will heighten literacy skills for your participants.

Fun, Hands-on Science

ClimateChangeEducation.Org; Jim Callahan, Editor

Description: We'll do science demonstrations together, then begin making your own versions using easy to gather and assemble, inexpensive, earth friendly supplies. Specific Demonstrations- Global Warming Discovery: Team up as space scientists, design space probes that travel to the planets; Carbon dioxide is changing our oceans (acidification); Albedo Effect: Comparing snow and oceans, white rooftops and asphalt -- related to global warming.

Workshops 12:05- 12:45pm

What Matters Most- Creating a Character

Antigone Trimis and Susan Sauter

Description: This interactive dramatic workshop will explore arts based skills and strategies designed to allow students to create and present characters that are dramatic and authentic. Special attention will be paid to the endowment of objects and the pursuit of objectives within a dramatic framework. Imagination, physicality and vocal techniques will be put to use to create original characters that are dramatic and stageworthy.

Rockin' Out at the Library

SF Public Libraries – Children's Division; Toni Bernardi; Barbara Vanderborght

Description: Learn how to use the public libraries over the summer and how to engage kids in summer reading.

MOAD: Connect to the Art, Culture and History of the African Diaspora

Museum of the African Diaspora; Demitri Broxton; Educational Director

Description: In this workshop you will learn how to take a field trip to visit MOAD. We will communicate what to expect at MOAD, how to prepare participants for a visit, and how to make the MOAD visit an educational experience for program participants.

Workshops 12:50- 1:30pm

What You Can Learn from Skulls

California Academy of Science ; Sarah Soule; Teacher and Student Services Educator

Description: Experience hands-on, minds-on activities based on the skulls of Northern Californian mammals. You'll be surprised how much you can learn from these intriguing specimens. This workshop will prepare you to use the Skulls Classroom Kit from the California Academy of Sciences.

Rethink Your Drink: Simple Tools to Create a Healthy Beverage Environment

Shape Up Coalition; Marianne Szeto, Health Educator, Shape Up San Francisco

Description: Did you know that ordering water instead of soda in restaurants just once a week saves you \$78 and 12,480 calories every year? Or that there are 10 teaspoons of sugar in just one 12-ounce can of regular soda? Learn how to be "Sugar Savvy" and get the tools to implement the Soda Free Summer campaign at your worksite, program, or organization.

Critical Thinking through the Performing Arts

Performing Arts Workshop; Gary Draper, Artistic Director (Performing Arts Workshop)

Description: Using elements of theatre and creative movement, participants will explore imagery in movement, and will learn how to explore critical thinking through the performing arts. Each participant will receive a copy of the Workshop's Out of School Time guide. Participants should be comfortably dressed and ready to move around.

Trainings 1:35- 3:00pm

Being Intentional About Learning

Katie Breckenridge from the Partnership for Children and Youth.

Description : This training will provide an overview of the elements of quality for a summer program, drawing on national research and model programs in other communities. The training will also specifically focus on ways to intentionally link learning goals to activities and to evaluation efforts, based on real-world examples from other programs. Hands-on activities will help participants begin defining what young people will learn from their programs. Presented by

Recruiting and Supervising Summer Staff

Be the Change Consulting; Sangita Kumar

Description : This training will provide tips and tools on how to recruit and develop staff, with a focus on effective supervision techniques and approaches. Activities will be related to the power of staff development through simulation and mental pictures.

Exciting Project-Based Learning Demonstration Integrating Visual Art, Science, Social Studies and Language Arts

Patricia Christensen, Visual Arts teacher in the STAR program, San Francisco Unified School District

Description: Hands-on visual arts projects can provide unforgettable learning experiences. With just a few inexpensive materials discover how to create "magic" for your students (all ages).

Positive Behavior-Supporting All Children for Success

Special Needs Inclusion Project (SNIP)/Edgewood ; Dee Hayden, Julie Dalesio, Diana Fuerza.

Description: In this workshop designed for the adult learner, we focus on the importance of a strength-based approach when working with all school-aged youth, including those with disabilities, in After School Programs. Attendees will learn to identify basic needs behind child/youth behaviors, how to better meet those needs and successful responses to redirecting unwanted behaviors. Our goal is to provide participants with tools that can then be practically applied to specific situations in programs.

Workshops 1:35- 2:15pm

Linking to Standards

Alec Lee & Sandra Korison Lee; Aim High

Description: The goal of this workshop is for participants to learn strategies that support teachers to create engaging curriculum that is linked to standards. Participants will have an opportunity to share resources and ideas about the best way to support students with out-of-school time learning opportunities

Using Theater and Storytelling to Build Literacy

Streetside Stories; Tara Dorabji, Co-Deputy Director

Description: The workshop will give strategies for using theater and storytelling to improve student learning and build community in after school and community based programs. The workshop will be led by Tara Dorabji who has worked with youth and as a trainer over the last 10 years.

What is Opera and What Does it Have to do With Me?

San Francisco Opera Education Department Staff

Description: Explore Opera via Mozart's fantastical story "The Magic Flute". We will watch excerpts from a movie of "Flute" to help us learn all of the multiple elements of Opera. Then we'll demonstrate how any story can become an Opera. Activities led can be done with students of multiple ages. Each participant will have access to using the "Flute" movie at their site.

Workshops 2:20- 3:00pm

Libraries, Tweens, Teens, and You!

San Francisco Public Library; Jennifer Collins; Teen Services Specialist

Description: Jennifer Collins will present and discuss the fantastically free offerings that the San Francisco Public Library provides during the summer for service providers, middle and high schoolers. She will help you navigate how to: make reading fun, find great resources, and schedule library visits!

Explore the Wild Side of Planet Earth

Tree Frog Treks; Jessica Schaffer; Senior Teacher

Description: Come explore the wild side of Planet Earth with Tree Frog Treks, and get ready to get out & get dirty! Learn new ways to spark kid's interest in science and nature, so they can become better problem solvers and discover what mysteries lie in our own backyards and beyond! With our quick and easy projects that you can take to your campers in any setting, both indoors and out - you will find something that works for varied age groups and settings. We will do hands-on science experiments, such as mixing chemical reactions or making slime, and other simple nature based art & science projects. Together we will learn new ways to save, preserve & maintain our home!

Incorporating Community Building into Program Design & Planning

Opportunity Impact; Pam Pradachith, Program Director and Silena Layne, Director of Curriculum & Collaborations

Description: Learn how to create a culture of community in the program day through program planning and design and evaluation. We share a theme-based approach to planning curriculum.

Making the Most of Your Academy Fieldtrip (Limited access—room to be specified at a later date)

California Academy of Sciences ; Sarah Soule; Teacher and Student Services Educator

Description: Learn how to make your visit to the California Academy of Sciences an exciting success. Get insider tips on what to do while you are here, and discover how to connect the experience back to your classroom.
