**NOTES:** This documentary film facilitates a youth-lead dialogue between San Francisco residents of color and local law enforcement in barbershops across The City. The film highlights topics of implicit bias, people of color in law enforcement, violence and ways of moving forward together. Following the screening will be a panel discussion with San Francisco law enforcement – a chance for audience members to confront issues affecting their communities, as well as make a tangible impression on youth, our future leaders. Constructive conversation in an open forum is the first step toward positive change, and a way to address misconceived notions between communities of color and law enforcement. The objective is to address the tension and develop a set of recommendations to change the current culture, and it can't be done without you. Bring YOUR voice to the conversation.

After a first mural in Les Bosquets, a neighborhood near Paris where he has worked for many years, JR has chosen San Francisco, a city very rich in contrasts, whose recent history could be told in a powerful way through a mural. Since the visit of Diego Rivera in 1931, San Francisco has a long muralist tradition. The city features immense innovation and wealth as well as one of the highest rates of child homelessness in the country. In San Francisco, JR will create both a still and a moving mural, capturing the nuances of the city at this moment in time, in a unique way.

**CONTACT:** [www.kp.org/communitybenefit/sf](http://www.kp.org/communitybenefit/sf)

**NOTES:** Kaiser Permanente's San Francisco Community Benefit Program is issuing this Request for Proposals for grants to engage persons who are homeless into care, specifically to address their behavioral health needs. This is the sole focus of the 2018 competitive grants solicitation. Other health needs, such as Access to Care and Healthy Eating Active Living, that have been part of past solicitations are not included in the 2018 RFP but will be addressed in next year's RFPs. These grants are expected to improve connections to services for persons who are currently un-housed through increased street outreach, engagement and case management to address their immediate social non-medical needs, and their mental health and substance use disorder issues. This funding can also be used by community-based providers willing to develop the expertise to link vulnerable populations in their neighborhoods to the stabilization services they need. Our goal is to improve community health by supporting the outreach end of the continuum of care for homeless residents. Kaiser Permanente is soliciting direct-service grants through a two-part process, beginning with a simplified proposal, or Letter of Intent (LOI), consisting of a summary cover letter and 3-page form. Grant Award Range \$10,000 to \$50,000, Grant Period 12 months: July 1, 2018 to June 30, 2019
