PRESENTATIONS

1. Dr. Vincent Matthews Superintendent of the San Francisco Unified School District – Dr. Matthews is here today on the second day of school to share with our conveners the progress and plan for addressing achievement gaps for students and schools. He starts with thanking BMAGIC and our collaborative for the work done on behalf of our young people. Special Thank you for providing the back pack many students need and that so many of them struggle to admit to. The gesture assists the students in being successful and sends a message about the community caring. This is his second year, the started in his position last year. He says in his first year, he took used the first half listening and learning. He is familiar with the Bayview and says he was born and raised here near the Providence Homeless Shelter. He loves being back in the City, finds it challenging in figuring out what is working well and where we are still struggling, each and every day we will provide quality instruction and support to survive in this century. He explains his interpretation of the SFUSD Test Scores and Achievement rates taken all year and when students take the end of year test, about 70% of our students are striving, to be great, it goes back to each and every. There is a number of students that need that extra help, African American and Latino Students, students that are low income, students of color is where the district struggles, go back to see the testing history, that gap has not been closed. One of the areas of struggle is in some strategies, need to focus immediately on a much smaller scale and then implement it out. He brought the plan to the board to make it the district our plan. There will be people who push back, the district plan, PITCH, to start in 5 areas 10 schools, historically underserving schools, largest populations have been African American, the 10 schools are the schools with high achievement gap challenges. They are only 75% are proficient. 95% of white and Asian are doing good, but 20% Achievement for AA and Youth of color is poor. Putting additional resources in school with he PITCH Plan - Professional Development, Instructional Guidance, Transforming Mind Sets, Collaborative Culture, High Quality Staff – making sure they are retaining. Turnover situation, in Bayview its 3 years vs. 15 yrs. in other neighborhoods. Turnover causes disruption in providing quality programming. Comment on how students in the BVHP feel isolated and have a lack of comradery. To assist with support, we are in it together. Equity based model, these students need more let’s provide more support. Spent the spring designing it, schools now engaging with their communities. How did it go with the board, they are behind it and said this is what we have been waiting for. Board wanted change, the board is also excited about the path we are on, the board has seven members staying and three member seats are up for re-election, could possibly be four seats. His hope is that it will be a board that continues with the plan. In implementing the plan at each school, the families are informed by staff members. There is a letter campaign about the next two meetings and asking, “do you agree” and letting them know that this is our focus, as a staff we are saying and asking parents and students if this is helping address those achievement gaps. Support PITCH, to support be at the meetings if you are the schools after school

BMAGIC COMMUNITY CONVENER MEETING

Tuesday, August 21, 2018 1:00pm – 3:00pm PST

Hosted at: 1800 Oakdale Avenue, San Francisco, CA 94124

Facilitated by: Lyslynn Lacoste, Frank Martinez and Moira Dumo, - BMAGIC STAFF

program. It is a valuable perspective staff does not always have. Resource distribution such as anti-racist teaching, they can help lend voice to the students, and that the solution fits the root cause. Making sure the process happens to identifying the roots causes and offer solutions. If there are, resources already in the neighborhood then the SFUSD can work with them instead of offer new money towards it. Will put on the website all the meetings for each site, you can call the sites and look on the SFUSD for the information and link. Asked about homeless students and at risk of being pushed out of the city for lack of income to compete rent wise, one school is making a homeless shelter for the homeless youth. Many students have that stigma as an obstacle. Up and running by November. School nutrition question; Is there going to be a revision to the school lunch program? A lot of the kids are expressing they are not being fed; the board just approved the current contract, a group of families came to the board meeting to express concern, that provider was there and has since provided updates to the board on the concern of the quality of free food. The vendor has a 3-year contract. Nutritional services is looking to have large kitchens locally to provide their own healthy lunches. The Back to school information and school calendar, roster and how to partner with us, are all on line. Reminder of days off, Thanksgiving is one whole week now, School goes till June, and Ms. Wade Thompson provided a contact sheet with cohort 3 information. Just a few ways to increase engagement, why are kids not in school, report it. Help us identify barriers, clothing, housing food, there is a district dept. that monitors transitional youth, that are on the verge of being homeless. Report back dates, back to school nights, staggered for age groups, Elementary, Middle, Jr. High and High School. Principal chats are important, helps students have a voice. Ms. Wade Thompson can do outreach at the home and jobs to find out why kids are not in school. Ms. Wade Thompson will provide us the back to school night dates. Working for Cohort 3, assisting other sites too. Back to school nights have great value.

2. Rise University Preparatory – Daniel Kim, Director of Development and Teacher and Kirk Davis, Community Engagement Director. Danny starts by saying thank you for time to share about their school, their second year, agree with Dr. Matthews on a lot of the problems that students have, and do provide care for the kids in our neighborhood. Kirk Davis and Danny Kim have over 20 years of teaching history at Rise. Think about what allowed you to succeed, socio-economic support, one or two teachers, friends, we can see ourselves in our school. Rise came out of a church, the Redeemer Church. The founders thought about what it would look like if they started a school for the community and congregation. The school grew out of that vision, finished the first year, grateful, first 20 6th graders, now 7th graders, small school offer quality teaching, first to college, low income, Bayview residents are prioritized. They are co-housed with a church and technology company. Showing the video now. Tradition of the school and the neighborhood, being pastoring in the neighborhood for years. 85% of the faculty and staff live in the Bayview, blessing both ways to the neighborhood and school. A relational model, believe that there is a relationship to foster and build in those opportunities to engage parents and children. Didn't want to talk about becoming a village, but to become a village and include partners and support other providers and support the student's families. People community and collaboration. Studies show mentorship creates a safe pace for students to thrive, 8-1 ratio of student to teacher. How can our students join what you are doing, the tech company provides low-income loans to help community move forward and great partners for the school.

BMAGIC COMMUNITY CONVENER MEETING

Tuesday, August 21, 2018 1:00pm – 3:00pm PST

Hosted at: 1800 Oakdale Avenue, San Francisco, CA 94124

Facilitated by: Lyslynn Lacoste, Frank Martinez and Moira Dumo, - BMAGIC STAFF

The school has low tuition, help low-income students and offer ways to support students. Helping them get to better achievement rates and showed a slide on the math, reading and language education also showing how we can collaborate. Want to be here want to be able to talk to people to come meet our kids. Can we collectively visit your business; see what other organizations are doing and teach and show the students many different aspects of working. Sending around some sign-ins for engagement with service providers, and opportunities to come speak. Community event coming, makers fair, and would like us to table, make a great place for the families of the school neighborhood meet providers. Friday community time is 3:45 to 4:50pm. Their school is for 6-12th grade. Rise is one of the few middle schools in the neighborhood. Located at 1224 Fairfax, by the Post Office behind the Bayview Plaza. Always looking for community service projects, yes can take children that are undocumented and speak other languages. A social justice school. Thank you Danny and Kirk.

COMMUNITY BUILDING

1. Scholar Match – Hannah Bardo, Scholarship Coordinator - Hannah is here today to talk about Scholar Match, their program and their student career center on Valencia, a big center for students to come in after school and weekends to work on the financial aid, how to come to the center and how we can go to you. Support young people in navigating the process of financial aid. Provide 1-1 coaching afterschool and then weekends, they offer College coaching, can meet regularly with their staff. Have incentive, free test prep sat and all their services are free. UC campus, SU's, what are majors, all the student questions. Offer college visits, their enrollment teams visit their center for students to meet them and engage personally with questions and college information. College field trips, can take students to city hall, visited Carmen Chu, have internships. Family component is crucial, offer assistance in Spanish, and Mandarin, able to connect and hear about other experiences. Help them build a college going culture, serve undocumented students, do you visit the schools? Do lot of outreach, teach a class in Mission HS, can offer one to one workshops for parents and families at other schools as invited. Teachers and field trips with teachers help break barriers for students. College panels, website is helpful too, a good resource and willing to collaborate. Drop in, can come in once or more that's, open after school until 7:30pm, scholar matcher, first generation, and have targeted about 300 schools with great information for students to research a college. Local scholarships list, there is a full scholarship opportunity, POSSE only by nomination and they can nominate too. Can provide space to meet with your students, safe space, with food and computers. They have a scholarship program, 500-6000 through college education and will be assigned to a college advisor that follows them through. Have a reward card, participation based. Lots of potential. Have other services and some workshops for middle school. Have longer-term services, lots of good resources.

BMAGIC COMMUNITY CONVENER MEETING

Tuesday, August 21, 2018 1:00pm – 3:00pm PST

Hosted at: 1800 Oakdale Avenue, San Francisco, CA 94124

Facilitated by: Lyslynn Lacoste, Frank Martinez and Moira Dumo, - BMAGIC STAFF

2. SFMTA Transportation Plans – Adrienne Heim, Public Information Officer and D10 Communications Liaison with Kansai Uchida, Project Manager and Rachel Hiatt, SF Country Transportation Authority – Here today to talk about the [Southeast Muni Expansion](#) and the [District 10 Mobility Study](#)

Rachel first, lots of transportation projects in the Bayview and many opportunities to have input. Rachel, current D10 Malia asked them to help make the community more informed and how can d10 have impacts mitigated. Growth from private development and it can benefit the whole community. Helped them with some events, help envision how would community use these services and be more accessible. We need more transit, fill in the gaps, expand routes, chariot doesn't offer services in Bayview. Do things like make it more accessible, and for lifeline customers. School to and from transportation, is there a way tech companies can help match carpooling, offer/provide transportation like coupons by CBO's. Car share interest, not much available. Don't really provide car sharing in the Bayview. At the phase where ideas have been provided, now narrowing them down, feedback on that, and can share in September. Identifying grant opportunities in the community to fund these ideas now. Recommendations from the board by the end of the year. MUNI expansion. Planner at SFMTA southeast muni expansion. Happy to be here, many families rely on MUNI to get their kids to school every day. Share and hear opportunities and how we might improve muni services in the southeast communities. Candlestick point and shipyard development, large area required to provide money to improve muni services to get there and back. Adding new and extending, increasing frequency. Making a shuttle bus to go from Balboa park station to the new area of development. Plan was drawn up years ago, need to adjust the plan to current needs and community input. Where are you going? Most north, and the western half. A lot of the new residents would be doing the same thing from the shipyard area. 72% are going to west and 28% going downtown. The biggest concern is that the proposed shuttle would have too much frequency for the need. Come up with ten ideas on to reorient the proposed route to new ones that go downtown. Need the community to help prioritize them, passing around the feedback forms and maps for sharing. Make a more user-friendly version, once that is made, it will be resent to CBO's for sharing. If your agency is interested in hearing if any groups want to participate with that. New lines, Bayview to mission, hunters point to the downtown corridor, increase the T line, only looking at bus improvements. Equity plan is in the works, and has been in action for improvements like two car trains, short-term improvements including the muni lines. New stops for the t third, has to go into the congested market street subway and gets in that mix. T will have the central station all to itself, end of 2019. Continued showing the ideas.

PROGRAM DEVELOPMENT

15th Annual Back To School Back Pack Giveaway - Thank you for participating, it was a success, with lots of firsts; it was our 15th year, the giveaway is the first event we did. This year we added new things like the Bike Giveaway and gear bags gave out over 60 bikes, SK Skate club

BMAGIC COMMUNITY CONVENER MEETING

Tuesday, August 21, 2018 1:00pm – 3:00pm PST

Hosted at: 1800 Oakdale Avenue, San Francisco, CA 94124

Facilitated by: Lyslynn Lacoste, Frank Martinez and Moira Dumo, - BMAGIC STAFF

gave out 40 skate boards, and Zaccho hosted Picture Bayview, for a community picture will be on the billboard near Rafiki, if you participated please provide any feedback. It was a hard event, our second year, thanks Frank and Moira. Already had debrief and planning for next year. PGE great partner and make the event more engaging. Lots of thanks, pastor Kirk very appreciative and grateful for picture.

GENERAL ANNOUNCEMENTS

Baysplash on September 22, 2018 – [Ecotarium, Bay.org, Eco Center STEAM Event](#)
